

Tiger Finger Puppet Instructions

Supplies: Orange and black felt
2 yellow medium wiggle eyes
Black marker
Felt Glue
Scissors

How to:

1. Cut a piece of felt to around child's finger. It should wrap around once with about ½ inch overhang. The felt should cover the entire finger. Use felt glue to secure the felt in a tube shape, place it onto a paint brush handle to dry.
2. Cut thin strips of black felt for stripes, about 1 inch long. Pipe lines of felt glue onto the left and right sides of the orange tube and gently press the black felt stripes into the glue. Let dry.
3. Cut a small triangle out of black felt and glue to the face for the nose. Glue wiggle eyes in place above the nose and add a mouth with a marker.
4. Cut three strips of black felt for whiskers, and then cut them in half. Glue three halves to one side of the face and the other three to the other side.
